Index to Volume 19, 2000

(No. 1 pp 1–97; No.2 pp 99–161; No. 3 pp 163–248; No. 4 pp 249–321)

Around the Journals, Editorials and Book Reviews sections are indexed separately

Adverse drug reactions review section

aggression 35
anabolic steroids 41
anti-epileptic agents 39
azathioprine and genetic polymorphism 293
benzodiazepines 37
breast cancer 223
cholinesterase inhibitors 40
clomipramine 40
cyproheptadine 40
drug regulation in the EU 179
drug resistance–antimicrobials 207
fluoxetine 40
garlic in breast cancer 231
genetic polymorphism and treatment outcome 298
ginseng in breast cancer 231
HIV protease inhibitors 64
interaction—drugs and HIV protease inhibitors 67
interaction—drugs and non-nucleoside transcriptase inhibitors 61
interaction—drugs and nucleoside transcriptase inhibitors 53
interaction—opportunist infection treatments in patients with HIV 78
measles, mumps and rubella vaccination 265
medicinal plants in breast cancer 223
6-mercaptopurine and genetic polymorphism 293
mistletoe in breast cancer 231
morphine 41
non- nucleoside transcriptase inhibitors 60
nucleoside reverse transcriptase inhibitors 49
taxoids in breast cancer 224
topoisomerase inhibitors in breast cancer 226
vinca alkaloids in breast cancer 229

Around the Journals 89, 153, 241, 318

adverse drug reactions and hospital admission 153, 241
amitriptyline hypersensitivity syndrome 243
Chinese herbal medicines—renal failure 91
drug-induced stroke 245
drug toxicity—epidermal necrosis and Stevens–Johnson syndrome 155
family planning—medico-legal trends 242
grepafloxacin—cardiovascular events 90
interaction—atorvastatin and cyclosporin 92
interaction—celecoxib and warfarin 157
interaction—cimetidine/ranitidine and dofetilide 92
interaction—fluconazole and amitriptyline 155
interaction fusidic acid and ritonavir + saquinavir 242
interaction—indinavir and St John's wort 153
interaction—tolterodine and warfarin 91
interaction—trazodone and warfarin 241
interferon-alpha induced psoriasis 243
leflunomide—pancyctopenia and skin reaction 89
leukotriene receptor antagonists—adverse reaction profiles 90
